The Case of Synthroid Alice M. Tybout, Julie Hennessy, Natalie Fahey, Charlotte Snyder, 2017 The case tells the story of Synthroid from its development in 1958 as the first synthetic thyroxine molecule to its competition against generic equivalents in 2004 The case introduces students to the pharmaceutical industry its practices and some of the complexities of pricing and drug choice with drug manufacturers insurance companies physicians pharmacists and patients all playing a role It also provides a primer on hypothyroidism its symptoms and its treatment Because Synthroid was developed and introduced before FDA regulations and drug standards of identity were fully established it was difficult for competitors to get their drugs certified as identical to Synthroid Through a series of efforts with physicians especially endocrinologists Synthroid s owners were able to maintain the perception for forty six years that Synthroid was uniquely effective In 2004 however the FDA declared several competitive products to be bioequivalent to Synthroid which posed a significant challenge to its owner Abbott Laboratories Students are challenged to consider options to maintain the drug s unit volume revenue and or profit in these difficult circumstances The case is written in two parts The A case provides background on the history of the drug the pharmaceutical industry and its marketing practices and hypothyroidism and its treatment and it concludes in 2004 as Abbott s marketers face the impending challenge of defending the Synthroid business against generic competition The B case describes what Abbott actually did to maintain its share in the United States and outlines its strategy in India a market without patent protection for pharmaceuticals After analyzing the case students should be able to Describe strategies that branded competitors can use to defend their business from lower priced competition Understand the basics of pharmaceutical marketing and pricing including the global challenge of defending branded drugs against generic equivalents Discuss ethical issues in the marketing of high margin branded products that have lower priced alternatives especially in the healthcare industry

Thyroid Hormone Metabolism Georg Hennemann, 1986 *The Case of Synthroid* Alice M. Tybout, Julie Hennessy, Natalie Fahey, Charlotte Snyder, 2017 The case tells the story of Synthroid from its development in 1958 as the first synthetic thyroxine molecule to its competition against generic equivalents in 2004 The case introduces students to the pharmaceutical industry its practices and some of the complexities of pricing and drug choice with drug manufacturers insurance companies physicians pharmacists and patients all playing a role It also provides a primer on

hypothyroidism its symptoms and its treatment Because Synthroid was developed and introduced before FDA regulations and drug standards of identity were fully established it was difficult for competitors to get their drugs certified as identical to Synthroid Through a series of efforts with physicians especially endocrinologists Synthroid s owners were able to maintain the perception for forty six years that Synthroid was uniquely effective In 2004 however the FDA declared several competitive products to be bioequivalent to Synthroid which posed a significant challenge to its owner Abbott Laboratories Students are challenged to consider options to maintain the drug s unit volume revenue and or profit in these difficult circumstances The case is written in two parts The A case provides background on the history of the drug the pharmaceutical industry and its marketing practices and hypothyroidism and its treatment and it concludes in 2004 as Abbott s marketers face the impending challenge of defending the Synthroid business against generic competition The B case describes what Abbott actually did to maintain its share in the United States and outlines its strategy in India a market without patent protection for pharmaceuticals After analyzing the case students should be able to Describe strategies that branded competitors can use to defend their business from lower priced competition Understand the basics of pharmaceutical marketing and pricing including the global challenge of defending branded drugs against generic equivalents Discuss ethical issues in the marketing of high margin branded products that have lower priced alternatives especially in the healthcare industry
